HOME INABEL WEAVING BURNAY POTTERY

ARTES DE FILIPINAS

Ilocano is also called Hoco or Hoko is the third largest ethnolinguistic group in the Philippines. They reside at the narrow coastal plain of northwestern Luzon, known as the Ilocos region. They also have stories to tell for hundreds of years, and their traditional handicrafts continue to tell their story and identity.

Ilocos is best known for being hardworking, appreciative, simple, and determined (ILOCANAPI, n.d.). These qualities made them focus on living a happier and better version of the life. However, we must also tap on the topic of their handicrafts. More specifically are the Inabel Weaving and Burnay Pottery.

Many may not know about this because not only are they replaced by machines, but youth are also losing interest in learning these handicrafts.

As we all know, folk art is the foundation of our society. Not only has it survived for hundreds of years, but it also tells the story of our ancestors—of the past. It helps to articulate our cultural identity to show the world who we are, what we are proud of, and what kind of life we live in.
